

MicroNova Mopping System

with NovaMop SW²

The NovaMop SW² is a hardware component designed for use with the SnapMop and PocketMop series of mop heads. The NovaMop SW enhances existing validated mops by offering a self wringing option. Designed for use on Floors, Walls, and Ceilings, the NovaMop SW² features a swivel joint that allows for 360° rotation of the mop head. Connects directly to the STA series of fixed length or extendible handles to create a custom reach. Can be used with SSU series stainless steel handles with the addition of the SSA-3 adapter.

Available in 14 or 18-inch widths

Crafted from lightweight polypropylene with electropolished stainless steel supports, the NovaMop SW² is resistant to common cleaning chemicals including: Phenolics, Bleach, Quaternary Ammonium, Peracetic Acid, Alcohols, Ultrapure Water. The entire unit is autoclavable.

Part No.	Description
QPNMSW-14	14" NovaMop SW ² Adapter
QPNMSW-18	18" NovaMop SW ² Adapter
STAH-48WH	48" Handle
STAH-60WH	60" Handle
STAEH-072WH	40-72" Extendible Handle
STAEH-101WH	40-101" Extendible Handle

NovaPoly—100% Smooth Knit Polyester. Compatible with strong disinfectants. Autoclavable
